TELUM TACTICAL INCINERATOR AUTOMATIC KNIFE

It's probably safe to say that as long as man and woman have walked this earth, cutting tools have been crucial to their survival. Whether it's for self defense, survival, hunting, bush craft or even the cool factor, to this day nearly every man, woman and child carries a knife of some sort. These include utility, tactical, switch-blade and butterfly designs as well as many others, with the basic pocket knife being by far the most popular. The common thread is that they're designed to perform effortlessly in whatever lifestyle they are included. Today's everyday carry knives are the perfect blend of form and function — art and science. The Incinerator Automatic Knife from Telum Tactical is a good example — built for speed, with a 3.5-inch S35V USA manufactured steel, black stone washed coated, hollow grind blade and a contoured two-part G10 handle. It features specifically designed cuts in the blade to make it lighter so it will deploy more quickly, and the knife can be fully opened with the simple push of a button to release its coil spring. A slide safety lock on the back can be used to lock the knife when in the closed position. Measuring 4.5 inches when closed, the Incinerator is finished with a reversible tip-up pocket clip and backed by a lifetime warranty. MSRP: \$189.99

2 ANGRY STAG AS-384-50 TRIMODE THERMAL SCOPE WITH THERMALOC

The AS-384-50 TriMode Thermal Scope from Angry Stag uses a 384x288 ultra sensitive (<25mK) thermal sensor coupled with a 50mm objective lens, (1,800 meter detection) with all the usual built-in features, from WiFi streaming to pre-event record. What differentiates Angry Stag scopes from others are two major features; TriMode and ThermalLoc. TriMode allows the scope to be used as a riflescope, a clip-on or a handheld for ultimate flexibility with no added cost. ThermalLoc allows the user to lock onto a target's temperature, select a target color and never lose that target, making the scope usable day or night. An optional laser rangefinder is available. All Angry Stag scopes are made in the USA. MSRP: \$2,499.

3 BARNETT DEMUN ACCU STRIKE PRO CROSSBOW

With an overall weight of only 2.3 pounds, the Barnett Demun Accu Strike Pro is a powerful break-action crossbow pistol designed for shooting and hunting — with an impressive arrow velocity of 210 fps from a 6-inch power stroke. The patented two-stage break-action reloading mechanism decreases draw weight by approximately 50%, allowing quick and effortless reloading. With its diamond knurl soft grip and adjustable red/green illuminated reflex sight, the crossbow offers impressive control and feel, while maintaining deadly accuracy. The Demun Accu Strike Pro comes with five 7-inch HyperBolts and Demun sling. Limb/string assembly required. MSRP: Retail: \$149.99

4 FEDERAL AMMUNITION FREIGHT TRAIN COPPER SABOT SLUG

Hunters who want improved terminal performance and accuracy from their rifled-barrel shotguns can now load up with Federal's Freight Train Copper Sabot Slugs. The Premium product line, designed for whitetail deer, black bears and other big game, features a streamlined copper projectile and exclusive sabot design to help print tight groups at 200 yards through rifled barrels. A polymer tip and aerodynamic nose profile maximize downrange velocity and energy, while the externally skived nose cavity provides dramatic expansion. The deep, externally skived slug cavity provides consistent, aggressive expansion across a broad velocity range, and the slug features reliable primers and clean-burning propellant in 12- or 20-gauge options and meets lead-free ammunition requirements. MSRP: \$22.99-\$25.99/Box of five

5 GARMONT TACTICAL 9.81 ALERT BOOT

Garmont Tactical's 9.81 Alert boot was designed to check all the boxes — lightweight, agile, stable and responsive — without compromising ease-of-wear for daily usage in a wide variety of weather conditions. The 9.81 Alert boot combines extremely supportive materials, a versatile mid-cut height and lightweight construction of approximately 770 grams per pair, with an exclusive Vibram Durmast outsole that features Megagrip technology. This unique mix creates a product that easily transitions from the shooting range to on-duty use, from rugged field application to everyday wear. Built around a unisex last, both men and women can depend on the 9.81 Alert as their new go-to boot. The 9.81 Alert comes in either Coyote or Black color options. MSRP: \$165.

6 HORNADY HIT TARGET IMPACT INDICATOR

Enjoy ultra-bright visibility up to 1,000 yards with the naked eye. Hornady's new Hit Target Impact Indicator's vivid light signals bullet impact on distant steel targets, providing instant feedback and enhancing the shooting experience. It easily attaches to most target stands, not the target itself, using the included elastic band. Powered by a micro-USB rechargeable battery, the Hit Indicator conveniently recharges in a vehicle or at the range — no need to worry about running out of batteries. Equipped with a sensitive accelerometer, it detects bullet vibrations for precise activation. When a hit is registered, the Hit Indicator communicates impacts in style by blinking "H-I-T" in Morse code, adding an extra layer of excitement to shooting sessions. MSRP: \$17.99

7 RITON 1 TACTIX ARD 2 RED-DOT SIGHT

The Electro-Optics Tactix family from Riton Optics continues to grow with the addition of the latest ARD (AR-Dot) model: the 1 Tactix ARD 2 Red-Dot Sight. From multiple mounting configurations to best match the shooter's use, adjustable brightness that includes night-vision-compatible settings and a multi-reticle to suit a wide range of preferences, the 1 Tactix ARD 2 answers the call for a variety of shooters. With two mounting height configurations and a choice between a dot only, or circle-dot reticle, it has eight daylight illumination settings and one night-vision-compatible setting to ensure visibility in virtually any conditions. Users can choose between a simple 2 MOA dot or a dot with a 30 MOA circle. MSRP: \$229.99

8 ROSCO MANUFACTURING GAS BLOCKS V2

Rosco Manufacturing's Non-Adjustable Gas Blocks V2 are now available for purchase — purposely designed to line up perfectly with Rosco barrels and gas ports to ensure reliable cycling every time. The Rosco Non-Adjustable Gas Block V2 is a direct plug-in for any one of the Rosco barrels and has provisions for pinning. Each gas block comes with two set screws and two roll pins, weighs 1 pound and measures 4x1.5x1.5 inches. All Rosco accessories are designed to take the abuse from unconventional wear and tear that customers might inflict on their firearms. This is how Rosco ensures that it's producing a product that will perform time after time under the most austere of conditions. MSRP: \$45

9 ROTHCO V2 CONCEALED CARRY VEST

The V2 Concealed Carry Vest from Rothco is equipped with a universal handgun concealment pocket, crafted with durable padding and featuring a two-layer design that accommodates both left- and right-handed carry preferences. It also has two inner magazine pockets designed for convenience, allowing the user to keep spare ammunition close at hand for quick reloading. With two zippered chest pockets and two zippered side pockets, the V2 vest offers abundant space for storing essentials such as a phone, wallet, keys and more. A two-way zipper function allows for quick and easy access to an IWB holster. In addition to its CCW capabilities, the vest is constructed with a high-performance soft shell three-layer fabric system that deflects wind, retains heat and releases moisture. It is available in sizes Small to 3XL. MSRP: \$77.99

13 VIKTOS RANGE TRAINER PANTS

Viktos Range Trainer Pants were designed for both tactical training and operational use. Their four-way stretch chassis ensures comfort during activities, while the durable nylon/spandex fabric can withstand harsh conditions. The adjustable waist closure provides a low-profile fit while the hand pockets are notched, allowing vertical knife orientation. The zippered front pocket is perfect for secure storage, while secondary slip pockets offer EDC organization. The Hipshoot rear pockets allow concealed AR magazines, and mesh pocket bags provide quick drainage. The padded waistband ensures comfort from stiff gunbelts, StormStrike DWR finish sheds the elements and the SunStrike UPF 50+ fabric blocks 98% of the sun's harmful rays. All Viktos pants come with a one-year workmanship and materials warranty. MSRP: \$95

14 X-VISION IMPACT 100 THERMAL LASER RANGEFINDER

Shooters can dial up the performance of their X-Vision Impact series thermal riflescopes — TS150, TS250 and TS350 — and get dialed in on targets out to 650 yards with the Impact 100 Thermal Laser Rangefinder. Its ergonomic design ensures easy handling and quick deployment, and its crisp, high-contrast display provides clear visuals in all conditions, enhancing the ability to track and identify game in dense foliage or low-light settings. With rugged construction and superior optics, the Impact 100 is designed to withstand the elements, delivering exceptional performance and reliability. It quickly mounts on a Picatinny rail and powers up every time users turn their thermal scope on. Powered by a rechargeable battery, the X-Vision Impact 100 is water- and dust-resistant. MSRP: \$774.99
